

Negotiations resumed between SAHO and HSAS after the unfair labour practices filed by both parties were withdrawn in January.

Meetings between SAHO and HSAS were scheduled for March 8, 9 and 10. The parties spent very little time face to face and the majority of meeting time was focused on procedural issues as opposed to in-depth discussion of specific proposals.

SAHO originally tabled 23 proposals and has withdrawn one of them. SAHO has also agreed to one of the proposals tabled by HSAS. HSAS has made more than 200 individual proposals covering over 125 clauses of the collective agreement.

The SAHO bargaining committee has offered several dates to continue discussions between now and June. HSAS committed to meeting April 28 – 30 and has not suggested additional dates. SAHO anticipates the next session will include an in-depth discussion of both parties' bargaining proposals.

Next meetings: April 28 – 30 in Saskatoon
